**NiceLabel**<sup>®</sup>

# DESIGNER

QUICKLY DESIGN AND PRINT BARCODE LABELS WITHOUT IT HELP.

## EVERYTHING YOU NEED TO DESIGN AND PRINT LABELS

Nicelabel Design and Print software helps you quickly design labels and create an efficient printing process. Quickly produce professional labels without making investments in training and coding.

### LABEL DESIGN

Designing labels has never been so easy. The Nicelabel designer delivers a familiar Microsoft Word-like user experience. You can quickly design professional labels, no prior knowledge of barcoding or designer training necessary.

### LABEL PRINTING

Say goodbye to printing errors. Printing labels with dynamic data is different from printing other types of documents. The labeling system needs to enable your staff to print quickly and without errors. Nicelabel includes an easy-to-use printing form that helps users quickly print accurate labels without the risk of error.

maintenance agreement: on request

# LABEL MANAGEMENT SYSTEM

MANAGE QUALITY AND SECURITY OF LABELING  
TO DECREASE RISKS AND HIDDEN COSTS.

## THE 4 ELEMENTS OF THE LABEL MANAGEMENT SYSTEM

### LABEL DESIGN

**Design labels with the easy  
to use label designer**

The Nicelabel designer delivers a familiar Microsoft Word-like user experience that enables anyone to quickly design labels. It moves label design out of the IT department and into the hands of business users.

### MANUAL PRINTING

**Deploy and manage labels  
centrally, print anywhere**

With the web printing system, you can centrally deploy and manage all manual printing applications to multiple sites, locations and third-party suppliers, contractors and vendors with a single click.

### DOCUMENT MANAGEMENT

**Manage your labeling in the  
document management system**

Think of it as SharePoint for labeling. Design, review, approve and control labeling from a centralized database without having to install software on workstations.

### INTEGRATED PRINTING

**Integrate label printing with  
your business systems**

Integrate label printing with SAP or other business systems to increase label accuracy, printing efficiency and establish single source of truth for your labeling data.

## THE DIGITAL TRANSFORMATION OF LABELING

NiceLabel's Label Management System includes a label designer, document management system, application builder, web printing system (for manual printing), integrated printing system, a non-production environment and a change and transport system. It scales from five users to thousands and can be extended to remote locations, suppliers or contract manufacturers.

### DESIGNER

Everything you need to design labels quickly.

### DOCUMENT MANAGEMENT

Manage all your labels in one secure database.

### MANUAL PRINTING

Print labels from anywhere. The web printing system allows you to instantly deploy a standardized label printing process across departments, factories, locations and even business partners.

### INTEGRATED PRINTING

Integrate label printing with your business system.

## ON PREMISE (USE YOUR OWN SERVER):

### LMS PRO

Basic Label Management System with limited integration.

### LMS ENTERPRISE

Full digital DMS with fully featured integration.

## CLOUD:

### LABEL CLOUD ESSENTIALS
