FEEDER-SERVICE

Service for FUJI Feeders
at low fixed rates.

NEW

PAGE 15

HOVER-DAVIS

FEEDERS FOR FUJI

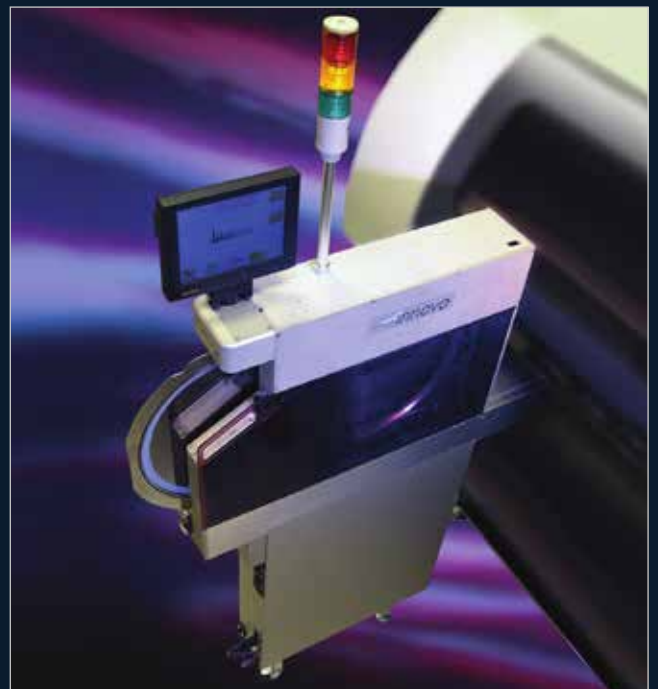

DDF INNOVA DIRECT DIE FEEDER

NXT

Turn a chip shooter into a Flip Chip Shooter, a SMT machine into an advanced semiconductor assembly solution and a custom automation platform into a flexible semiconductor assembly solution. By utilizing DDF technology, customers may realize significant savings by:

- Eliminating separate and dedicated production lines for SMT, bare die and flip chip by combining them into one.
- Enabling total assembly solutions with much higher speed and flexibility, resulting in lower cost per placement.
- Eliminating costly, non-value added processes, such as intermediate die transfer into pocketed tape, surf-tape or waffle packs prior to placement.

Please **ask for a quote**.

SPARES/CONSUMABLES

NXT FILTERS AND CONSUMABLES

Standard NXT head filters. Original New consumables as specified by Fuji for NXT machines

PAGE 16

SPLICE TAPES FOR FUJI

AdoptSMT Premium Double Splice Tapes provide 100% compatibility to Fuji splice detection as used on NXT, NXTII and AIMEX systems.

PAGE 16

DISPENSE NEEDLES FOR FUJI GL

Dispense needles for Fuji GL series dispensers.

PAGE 17

MACHINE & BOARD HANDLING SPARES

Spare parts for Fuji SMD Mounters (incl. NXT) and Board Handling Systems.

PAGE 18

CONDITIONS

OEM ORIGINAL NEW

Original parts from package purchases. Your benefit: Alternative source for original parts.

ADOPTSMT PREMIUM NEW

AdoptSMT branded spare parts and consumables. Your benefit: Price advantage with same or better quality compared to original parts.

ADOPTSMT RENEW

Repair, reuse, refurbish. Pre-owned equipment of all kinds. Service and repair for expensive parts.

CHECK AVAILABILITY ONLINE

Big stock of FUJI Spare parts. Create online request at <http://www.AdoptSMT.com/articles>.

Also widely used for customer specific automation projects and with programming systems

QF SERIES TAPE FEEDERS: MULTIPITCH, 8-120 MM

IP QP2 QP3 XP

Versatile electronic multipitch operation. Less feeder inventory is required compared to traditional fixed pitch feeders. Smooth, motor-driven feeder advance is electronically controlled. This leads to fewer component mispicks. Reverse index tape drive, dramatically reduces component loss during set up. Please ask for a quote. Machine compatibility: Fuji® IP, QP2, QP3, XP and new models using the MFU interface.

AXIUM MEDIA PRESENTER: MORE THAN JUST A LABEL FEEDER.

PAGE 12

IP QP XP NXT

Reduce cost, improve quality and eliminate hand assembly. Pick and place labels, insulators, interconnect, shields, antennas and other adhesive backed media with the configurable AXIUM Media Presenter available for Fuji IP/QP/XP and NXT. Please visit www.AdoptSMT.com/products/axium to learn more.

The Feeder Company

NXT NOZZLES

ORIGINAL NEW AND PREMIUM QUALITY

AdoptSMT Premium NXT nozzles are designed to meet the demands of a modern production environment.

Every nozzle corresponds to the OEM nozzle design and features both the OEM data matrix code and color matrix code for easy identification by the machine. All AdoptSMT Premium NXT nozzles have been tested and are guaranteed to function properly with the original equipment.

Besides of our Premium Quality nozzles we can also supply a wide range of **Original New** NXT nozzles.

For **special head nozzles** or **special LED and Gripper Nozzles** see **Count On Tools nozzles on page 11**. For nozzles not mentioned please contact our sales team for more information.

Articlenumber	Description	EUR/pc	
	Please send us your request mentioning the Fuji part number you need.		on request

AUTO-APPLYING LABELS

HOVER-DAVIS AXIUM MEDIA PRESENTER FOR FUJI: MORE THAN JUST A LABEL FEEDER

HOVER-DAVIS
The Feeder Company

AdoptSMT recommends labels and masking products from CCL (previously Nortec Group). CCL provides labels appropriate to the standards needed for the use with Hover-Davis auto apply processes. More information: www.adoptsmt.com/products/identification

Reduce cost, improve quality and eliminate hand assembly. Pick and place labels, insulators, interconnect, shields, antennas and other **adhesive backed media** with the configurable AXIUM Media Presenter. It automatically feeds and peels media from liner and presents for pick-up.

One for (almost) all

Most applications with media size 3x3 to 42x35mm (width x length) can be handled with ONE Generic Media Platform and can be picked with standard nozzles.

Customer configurations available for < 3mm applications. Platform for up to 58x50mm (width x length) also available.

Plug-and-Play at several speeds

Selectable speed modes for optimal performance. Plug-and-Play models for most platforms and automation cells.

Investment protection

Label feeder LMG modules are compatible with the AXIUM Media Presenter.

Easy handling

Easy to use user interface with push button controls. User serviceable modular design.

Warranty

Comprehensive 2-year warranty.

HOVER-DAVIS AXIUM FEEDER SPECIFICATIONS				
Specification	Models for 3-42 mm liner width		Models for 14-58 mm liner width	
	Minimum	Maximum	Minimum	Maximum
Media size	3x3 mm* (WxL)	42x50 mm (WxL)	3x3 mm* (WxL)	58x50 mm (WxL)
Media thickness	0.1 mm	0.4 mm	0.1 mm	0.4 mm
Liner Width	3 mm	42 mm	14 mm	58 mm
Liner Thickness	0.05 mm	0.08 mm**	0.05 mm	0.08 mm**
Feed rate	30 mm/sec	95 mm/sec	30 mm/sec	95 mm/sec

* Custom configurations to support media <3mm quoted upon application review. ** Media sample review by Hover-Davis suggested for liner thickness > 0.08mm.

AXIUM MEDIA PRESENTER for 3-42 mm and 14-58 mm liner width				
Pick and place machine compatible with	Description	Art No. Original New	EUR/Pc	Comp. Modules
FOR 3-42 MM LINER WIDTH				
NXT, I, II, III, AIM, AIMEX, XPF	AXIUM Media Presenter Fuji NXT	HO-AMPFN02-001	on request	GMP02, GMP01 ⁽⁷⁾ , LMG02
	AXIUM Media Presenter Fuji NXT with Reel Holder	HO-AMPFN02-002		
FOR 14-58 MM LINER WIDTH				
NXT, I, II, III, AIM, AIMEX, XPF	AXIUM Media Presenter Fuji NXT	HO-AMPFN12-001	on request	GMP12, GMP11 ⁽⁷⁾ , LMG12
	AXIUM Media Presenter Fuji NXT with Reel Holder	HO-AMPFN12-002		
GENERIC MEDIA PLATFORM (MODULE)		FOR 3-42 MM LINER WIDTH	FOR 14-58 MM LINER WIDTH	
GMP35 Generic Media Plattform adjustable module, supports 3 - 35mm label length (Standard)		HO-GMP02	on request	HO-GMP12
GMP50 Generic Media Plattform, adjustable module, supports 3 - 50mm label length (special applications)		HO-GMP01		HO-GMP11
Custom Label Module – Special Applications, Custom Module - Requires Application Review, 4 mm minimum label length		HO-LMG02..	on request	HO-LMG12..
(7) Application Dependent - consult AdoptSMT for GMP01/GMP11 module compatibility.				

HOVER-DAVIS AXIUM MEDIA RECOMMENDATIONS				
Property	Recommended		Not recommended	
Label size		Min 3x3mm, max 42x50 mm (wide: 58x50 mm), width x length		Less than 3x3 mm, more than 42x50 mm (wide: 58x50 mm)
Label shape		Rectangle, square, round		Irregular Shapes (with and without cutouts) Talk to us. We can test and make work many irregular shapes.
Die cut		No lift marks		Prominent lift marks
Label opacity		Opaque to semi-transparent		Transparent media
Pitch		Minimum 1 mm required		Less than 1 mm
Single column		Single column is ideal		Multi-column – Some machine applications are not compatible with multiple columns
Label orientation		crosswise		lengthwise
Cover tape		None		Additional insulating tape not removable by presenter
Reel size		3 inches ID required		Other than 3 inches
Reel winding direction		Overhand, media facing up (out)		Underhand, media facing down (in)

HOVER-DAVIS AXIUM 'RAMP'

TURN YOUR FIXED LABEL SIZE HOVER-DAVIS LP-FEEDER INTO A FLEXIBLE LABEL SIZE AXIUM MEDIA PRESENTER

Back: LP Feeder with fixed label size LMG label module
 Front: LP Feeder upgraded to a RAMP Axium Media Presenter with flexible label size GMP module

SAME AS AXIUM 'AMP' – FOR LESS MONEY

All features of Hover-Davis AXIUM apply.

SEVERAL UPGRADE PATHS

- upgrade your own LP Feeder to AXIUM 'RAMP'
- get new 'RAMP' and return your LP Feeder for credit
- get 'RAMP' instead of AXIUM 'AMP' and save costs (subject to availability)

INVESTMENT PROTECTION

Label feeder LMG modules are compatible with the AXIUM Media Presenter.

EASY HANDLING

Easy to use user interface with push button controls. User serviceable modular design.

WARRANTY

Comprehensive 1-year warranty for all kinds of upgrade paths.

Articlenumber	Description	EUR/pc	
Upgrade your Hover-Davis LP label presenter (complete and running) to AXIUM Media Presenter:			
HO-RAMPFN02-001REP	Upgrade LPFN02-001 to AXIUM AMPFN02-001 Media Presenter		on request
HO-RAMPFN02-002REP	Upgrade LPFN02-002 to AXIUM AMPFN02-002 Media Presenter		
Get new 'RAMP' AXIUM Media Presenter (rebuilt LP-Feeder):			
HO-RAMPFN02-001	AXIUM AMPFN02-001 Media Presenter (rebuilt LP-Feeder), FUJI NXT		on request
	Optional credit for return of used but complete and fully functional LPFN02-001		
HO-RAMPFN02-002	AXIUM AMPFN02-002 Media Presenter (rebuilt LP-Feeder), FUJI, with Reel Holder		
	Optional credit for return of used but complete and fully functional LPFN02-002		
Generic Media Platform (Module) for flexible label sizes:		see page 13	
The following only applies to LP Feeders with serial numbers below xxxx xxxx 0710:			
Upgrade of metal toothed wheel to plastic toothed wheel including new motor for LP feeder			on request

The screenshot shows a web browser window with the URL <https://tools.adoptsmt.com/articles/search/>. The page title is "ADOPTSMT PRODUCT SEARCH". A search bar contains "Filter NXT" and a dropdown menu is set to "Fuji". A green "Search" button is visible. On the right side, there is a vertical navigation menu with links for Feeder, Spares, Consumables, Accessories, Tools, Service, and Repairs.

Below the search bar, it states "8 available products found". The results are displayed in a table with columns for Manufacturer, Article Number, Description, Qty/Pack, Original New, Premium New, Renew, and Request. Each row includes an "Add to cart" button.

Manufacturer	Article Number	Description	Qty/Pack	Original New	Premium New	Renew	Request
Fuji	ZMGTHA067900	Filter NXT Head H24	1	on request	available on stock		Add to cart
