Herewith _____ grants AdoptSMT the exclusive right to sell the equipment mentioned in the appendix for a certain period (until __ __ __ __)

AdoptSMT will try to sell the equipment at the agreed target prices as mentioned in the appendix during this period with the goal to sell EXW with customer inspection of the machines still on site. This would minimize AdoptSMT's efforts and enable us to reach reasonable prices for _____.

In case AdoptSMT would not manage to sell within the agreed time frame, AdoptSMT commits to buy the remaining equipment into stock on their risk at the agreed minimum prices.

This way _____ can be sure the equipment will be sold within a defined schedule.

Procedure:

This agreement is based on the annexes as inspected on xx.xx.xxxx.

Further use of the annexes, including regular maintenance to the extent previously customary, is assumed. If the scope of use or the condition of the annexes changes significantly, AdoptSMT reserves the right to conduct another inspection and, as a result, to possibly renegotiate the prices.

If AdoptSMT identifies potential buyers during the term of this agreement who would not purchase based on the target prices, the prices can be adjusted at any time by mutual agreement.

Once AdoptSMT reaches a purchase agreement (including parts of the annexes) with a potential buyer, AdoptSMT will order these annexes from the customer at the agreed-upon prices.

Annexes that could not be sold during the agreed term will be ordered by AdoptSMT at the end of the term at the agreed minimum prices.

Payment terms:	Upon pickup / receipt of invoice, 30 days net.
Warranty:	The annexes are complete and fully functional at the time of delivery, as inspected, including documentation, CE declarations, and software. Furthermore, any warranty is excluded.
Delivery terms:	FCA customer.

Cust.

Re-Marketing Agreement

Date

Delivery deadline:

The annexes must be collected within xx working days after the expiration of the agreement.
