

VarioGrid SYSTEM (2-rows)

VarioGrid - a highly flexible support system that has been developed for individual customer requirements. The optimum PCB support prevents assemblies from bending during the printing or pick-and place process.

VarioGrid is ideal for double-sided assemblies, as it eliminates the time-consuming insertion of supports. It can be used in all common printer and SMD placement models.

Additional accessories and spare parts are available upon request

VarioGrid System module, 2- rows, Width 22 mm

100009	VarioGrid System module 311-74-B22	VarioGrid system module 311-74-B22 Flexible PCB support - Length: 311 mm - (plus 15 mm with air connection block) - Width: 22 mm - Support height: 74 mm - Number of support pins: 52 pieces - Grid of support pins: 11 x 11 mm - Weight: 0,9 kg - Colour: silver/blue - Electrostatic dissipative: yes
100004	VarioGrid System module 410-74-B22	VarioGrid system module 410-74 -B22 Flexible PCB support - Length: 410 mm - (plus 15 mm with air connection block) - Width: 22 mm - Support height: 74 mm - Number of support pins: 70 pieces - Grid of support pins: 11 x 11 mm - Weight: 1,15 kg - Colour: silver/blue - Electrostatic dissipative: yes
100010	VarioGrid System module 410-76-B22	VarioGrid system module 410-76 -B22 Flexible PCB support - Length: 410 mm - (plus 15 mm with air connection block) - Width: 22 mm - Support height: 76 mm - Number of support pins: 70 pieces - Grid of support pins: 11 x 11 mm - Weight: 1,15 kg - Colour: silver/blue - Electrostatic dissipative: yes
100008	VarioGrid System module 542-74-B22	VarioGrid system module 542-74-B22 Flexible PCB support - Length: 542 mm - (plus 15 mm with air connection block) - Width: 22 mm - Support height: 74 mm - Number of support pins: 94 pieces - Grid of support pins: 11 x 11 mm - Weight: 2.3 kg - Colour: silver/blue - Electrostatic dissipative: yes

VarioGrid System module, 2- rows, Width 26 mm

100013	VarioGrid System modules 410-39-B26	VarioGrid system module 410-39-B26 Flexible PCB support - Length: 410 mm - (plus 15 mm with air connection block) - Width: 26 mm - Support height: 39 mm - Number of support pins: 70 pieces - Grid of support pins: 11 x 11 mm - Weight: 2.3 kg - Colour: silver/blue - Electrostatic dissipative: yes
100012	VarioGrid System modules 410-47-B26	VarioGrid system module 410-47-B26 Flexible PCB support - Length: 410 mm - (plus 15 mm with air connection block) - Width: 26 mm - Support height: 47 mm - Number of support pins: 70 pieces - Grid of support pins: 11 x 11 mm - Weight: 2.3 kg - Colour: silver/blue - Electrostatic dissipative: yes
100467	VarioGrid System modules 410-55-B26	VarioGrid system module 410-55-B26 Flexible PCB support - Length: 410 mm - (plus 15 mm with air connection block) - Width: 26 mm - Support height: 55 mm - Number of support pins: 70 pieces - Grid of support pins: 11 x 11 mm - Weight: 2.3 kg - Colour: silver/blue - Electrostatic dissipative: yes

VarioGrid control modules – for the direct supply up to 4 VarioGrid modules

100042	VarioGrid AirBOX-Control	VarioGrid AirBOX control (for the direct supply of up to 4 VarioGrid modules)
100047	VarioGrid AirBOX-Automatic control	VarioGrid AirBOX automatic control Control via pressure switch (for the direct supply of up to 4 VarioGrid modules)
100050	VarioGrid AirBOX-Automatic for SMD placement machines	VarioGrid AirBOX automatic control for SMD Placement machines (for the direct supply of up to 4 VarioGrid modules)
100051	VarioGrid AirBOX-Automatic control	VarioGrid AirBOX automatic control Control via micro or proximity switch (for the direct supply of up to 4 VarioGrid modules)

VarioGrid optional accessories

100045	VarioGrid / AirBox hose set complete
100053	6-way distribution block with coupling sockets
100055	6-way distribution block with plug-in fittings
100054	10-way distribution block with coupling sockets
100057	10-way distribution block with plug-in fittings

VarioGrid accessories for height compensation

100171	Precision construction 7 - 64x20 mm	Precision construction 7 - 64 x 20 mm Height 7 mm Length 64 mm Width 20 mm
100172	Precision construction 10 - 64x20 mm	Precision construction 10 - 64 x 20 mm Height 10 mm Length 64 mm Width 20 mm
100173	Precision construction 12.5 - 64x20 mm	Precision construction 12,5 - 64 x 20 mm Height 12,5 mm Length 64 mm Width 20 mm
100327	Precision construction 20 - 64 x 20 mm	Precision construction 20 - 64 x 20 mm Height 20 mm Length 64 mm Width 20 mm
100175	Precision construction 22 - 64x20 mm	Precision construction 22 - 64 x 20 mm Height 22 mm Length 64 mm Width 20 mm
100422	Precision construction 25 - 64x20 mm	Precision construction 25 - 64 x 20 mm Height 25 mm Length 64 mm Width 20 mm

Additional VarioGrid accessories and spare parts are available. Please contact us for more information.
